

## **U 15 B (defence)**

The process was overseen by the All Star Director and Past President (as the Technical Director was in conflict) to ensure the validity and fairness of the evaluation. As noted in the Phase 2 Group posting all Defence in both Group 1 and 2 were still eligible for selection to both the B or C teams as well as one player not attending the game sessions and 1 player who received an exemption and has now been fully evaluated. This portion of the selection was by far the most difficult for all involved. Once the Phase 2 games were complete all Defence were re-pooled in one group for a detailed and in-depth evaluation.

The subsequent evaluation of these players took the vast majority of the time in the post game selection meeting. Each player's individual scores from all sessions were used in a grid to complete a very detailed comparison. There were many players with near identical numbers and the evaluators engaged in lengthy discussion to find anything that could separate one player from the next. In the end, extremely difficult decisions had to be made and the following players have been selected to the U 15B team: (alphabetical order)
